

Are you **managing** your business?

Custom Proposal SystemTM

• EASY to Use • Makes MONEY • Saves TIME

PERFECT FOR DESIGNERS / INSTALLERS OF:

- Audio • Video • Lighting
 - Automation • Phones
 - Computers • Security
- Residential & Commercial

The magic behind how Horizon Software products can increase your profits is all in the technology we offer. We call it **SmartWare** because it's very easy to use, flexible and intelligent. It allows you to spend more time doing what you do best and less time doing paperwork.

By integrating very powerful software modules, created specifically for systems integrators, information is more readily available for just about any task you need to effortlessly track and complete your projects.

Each module is *mouse-driven* which means you can increase your profits and improve your company's image by using HORIZON SOFTWARE products with just a *simple point and click!* You'll impress your clients with professional looking proposals and manage your projects to a degree never before possible.

✓ Custom Proposal System

Custom Proposal System makes bid, proposal and quote generation FAST and EASY. So easy in fact that *you can do it all with just a few clicks of your mouse!*

✓ Graphics Draw!

Automatically create stunning floor plan layouts, block/wiring diagrams, racks and schematics, then instantly place them into your proposal documents and *multimedia formats!*

✓ Contact Manager

This full-featured contact manager was created specifically for systems integrators to use in a variety of business situations. Now, *communicating with your clients has never been quicker or more convenient* with a selection of fully customizable, pre-defined sales letters.

✓ Project Manager

Schedule your labor and material resources while managing dozens of installations *with just a click of your mouse*. Project Tracker takes each project and alerts you to a proposal's due date, the due date of each job phase, while also tracking payments, schedules and products for every phase of each job.

✓ POS Invoicer

Sales invoices, quotations, service orders and purchase orders can be quickly created for front counter or field use. Simple enough to help you quickly produce service invoices on the spot and advanced enough to track, retrieve and modify your existing invoices *quickly and easily*.

✓ Text Library

Text can easily be stored and drawn into a proposal with a click of your mouse *by accessing an extensive library of pre-defined information!*

✓ Product Library

Classify products by department, category, make and model, complete with short or long features and benefits text. Also, create product sets for groups and then draw them into your proposals. Product specs such as dimension, finish, electrical requirements and warranty can be stored and given to architects, electricians and cabinet makers.
