Mobile

- Laptops
- · Palm & Windows CE
- · Touch Screens Terminal Services

SmartPartner SOFTWARE®

(contains all features shown above)

Directing my clients to Horizon Software was an easy decision. I weighed the performance, functionality, and price of the competing packages, and the SmartPartner Software suite clearly outshined the competition. The software is easy to use, intelligently designed, and feature-rich. Complimented by Horizon's personal level of service... there is simply no rival in the marketplace."

Orville Grene Consultant/System Integrator Custom Proposal System[®]
